- Sixteen to One.
- On Saturday afternoon, sixteen men watched one man fix an umbrella, under the iron stairway, corner of Main and Second. Doesn't that show that there is a free and unlimited number of idle men hereabouts?
- Rats as Bankers.
- On Sunday night, forty-nine rats were caught in the cellar of the Farmers National Bank in Lexington. Several traps full were brought out on the streets, Monday morning, and the dogs and boys had a great time.
- Not Sold.
- Report has gained wide circulation that THE CLIMAX has been sold and that hereafter it will be a freer-silver organ. The report is not correct. Tact is cheap but it takes work to dig it. Some gentlemen priced the paper but did not buy.

**Sent to the Asylum.**  
Mrs. Silas Cobb was tried by a jury before Judge J. B. Burnham, last Wednesday, at her home at Celest, on a writ of lunacy. She was found to be of unsound mind. The trouble has been coming on since March. She imagines that she is compelled to move and wants to tear up things and get ready for the removal. She was taken to Lexington.

**Free Silver.**  
We extend thanks to manager Smith, of the Richmond Bottling Works, and agent of the Christian Moeblin Brewing Co., Cincinnati, for an elegant silver match case, beautifully engraved. As it is a present, it is therefore free silver, and we are sorry that it is limited—should like to have a thousand or so of them.

**Surprised Darkey.**  
During the meeting of the Kt. Temp. Bar Couvante, one of the Grand officers asked a local knight to find a boy to wait on him during his stay in the city, which was done. The boy had a paralytic nothing to do. When the man gave him \$3 and asked him if he would pay him, Beckridge's eyes flew wide open and he almost declared himself for free silver, as he thought he had done only about 25cts worth of service.

**After a Long Illness.**  
Cyrus F. Turner died in Richmond, Ky., on Saturday, June 21st, 1896, aged about 46 years. Buried on Sunday in the family lot in the cemetery, from the home of his son, Mrs. H. H. Hood. He had been an invalid for many months. He was the son of the late Sidney K. Turner. Formerly was a watchmaker, but had followed several callings, his last being a hotel man in Ohio. Cy Turner had many good qualities and numerous friends.

**Only Half a Dozen Portrayed.**  
The New York World had only half a dozen pictures of the prominent men at the St. Louis convention. One of this was Judge Wm. Frazee, of Missisippi, a brother of Dr. L. J. Frazee, this place. Judge Frazee was attorney for a contested delegation. He, like his brother, was a rebel soldier, but after the war went off with the Republicans and was elected Circuit Judge, then became collector of Internal Revenue. He is a rich man with good law practice.

**Done to Europe.**  
Miss Minnie May, daughter of Mr. and Mrs. J. S. Armstrong, of Dallas, Texas, and grand-daughter of Capt. F. J. White, sailed from New York, this week, with a party for Europe, for a two months' trip. Minnie is a beautiful and gifted young lady, and has many friends here who wish her a pleasant voyage and safe return.—Lancaster Record.

**Surprised the Camp.**  
About noon on Thursday, collector Bole's office was taken completely by surprise and surrendered unconditionally. Mrs. W. H. Miller sent to the office an abundance of the most delightful ice cream and cake and the finest coffee imaginable. The force took a recess, and as action speak louder than words, profoundly thanked the thoughtful lady for long continued action with the spoons as well as their tongues. In substance they resolved that it would be a glorious thing if there were a Mrs. Miller for every day in the year.

**Died at Mt. Pleasant.**  
Kills Burgh died at his home on the Lexington pike, at Mt. Pleasant church, on Monday, June 22, 1896, aged 55 years. Buried at the old family grave on the farm near the house. He was a member of the church and had been married for twenty years and continued to live with his wife. He leaves a wife, sister to H. K. Carr, this place, and a daughter, Miss Tillie, of his first wife. Also four brothers—Jason, of Versailles; Jasper, of Colorado; Allen, of Kansas; and Madison, of White Hall. His father was Kills Burgh, Sr., who had fifteen children.

**Appreciated.**  
A subscriber who failed to get the CLIMAX last week, telephoned from Whites Station at a cost of 15 cents, to let the publisher know that he had received a copy he had sent at once, as the people about Whites Station could not do without it.

**W. C. Bangh wrote all the way from Antioch, La., to say that he failed to get June 10th number. A Kansas City man sent a similar message. We are pleased to know that the CLIMAX is so highly prized, and we think people along the way ought not to intercept subscribers papers.**

**Proff Free to Mill.**  
The law provides that persons going to and from mill with their sacks on horseback shall pass toll gates free. A West End man solved for a while the question of toll gates so far as he is concerned by always being outside a sack when he passed the gates. The keeper thought he was using a vast amount of meal at his house, but raised the pole and said nothing. They resolved, however, to investigate the first chance that presented itself, when it was discovered that he had been used to deceive so long, had almost become hard task. The fellow doesn't travel now as much as he used to.—Stanford Journal.

**L. & N. Reduced Rates.**  
Reduced rates via L. & N. R. R. to Cincinnati, Ohio, and return, \$4.67 round trip, account Oakley and Linton races. One fare for round trip to Newport, Ky., account Kentucky Educational Association, June 22 and 23, good until June 27th. Richmond, Va., and return, account Confederate Veterans Reunion, June 25, 26, good until July 10th, \$11.25 round trip.

**Washington, D. C., and return, account Christian Endeavor meeting, July 4-6, good until July 31, one fare for round trip.**

**National Democratic Convention at Chicago, one fare for round trip.**

**Board Sues the Council.**  
At a recent meeting of the City Council, a motion to levy a tax of 25 cents on the \$100 of taxable property for school purposes was voted down by a vote of 3 to 2, one councillor being absent and the Mayor not voting.

**On Saturday, the Board of Education by its attorney, Hon. W. B. Smith, filed suit against the council praying a manumission to compel the levy. The case will be defended by City Attorney P. H. Sullivan. The parties will not be before Circuit Judge T. J. Scott at Winchester ten days.**

**Should the case go to the Court of Appeals the parties will go to Frankfort and ask the court to advance the case on the docket for immediate hearing.**

**It is believed that the Council, as individuals, wish to have a court decision between them and the levy, in case there should be a deficit.**

**Lock No. 7.**  
The job of pumping out the lock pit at the new lock No. 7, on the Kentucky river, has been successfully accomplished. No springs or leaks were found inside the coffer dam. Second and third locks are jubilant over the prospects ahead. The mud is being rapidly cleared off the solid rock bottom of the pit, and when this is done laying of stone will begin. Every kind of apparatus known that will tend to speed the new lock to completion is on hand, so is the material and as the work progresses there will likely be no further delays. The first installment of cement for the masonry arrived last Saturday aboard the steamer Falls City, and for twelve consecutive Saturdays she has contracted 1,500 barrels there from the mills of Louisville. So far, no piece of public work as extensive as Lock No. 7 has ever made as rapid progress before. Lieut. Hart and his men and the sub-contractors are all hustlers, just such as Uncle Sam should have all over this country.—Nicholasville Journal.

**As to "Quitters."**  
One of the chroniclers of the doings at St. Louis says that when "Sam" Fossenden, of Connecticut, learned that "Joe" Manley, of Maine, had thrown up the Red spore, he shook his fist in the Maine man's face and ejaculated: "Joe, the Almighty God hates quitters!"

**Up in Connecticut, where they mix their politics and their piety (without improving either), it is a common thing for men to assume a thorough knowledge of the mind of the Deity. They speak of Him as familiarly and as confidently as they would of their grocer. But is Mr. Fossenden perfectly sure that "the Almighty God" (as he says) hates the man who quits the railroad track when he sees the locomotive coming? Does He hate a mortal who quits the pasture when a raging bull is charging down upon him? Does He "hate the quitter" who betakes himself to the cyclone cellar when the dreaded storm approaches?**

**Manley's admission was unnecessary and premature, but simply recognized and stated a fact obvious to everybody. There really is no difference between the heroism and what Democrats call "dampfoolism?"—New York World.**

**Worse and More of It.**  
In yore olden time, flowers only were used at a wedding, and the presentation to favorites of the class. They were not flowers and not in great quantity. Neither were the bride's large. But as time rolled on the flowers rolled up into massive institutions, and finally potted flowers and even plants were added. This was not enough, and fruits were added to the flower-laid list. Then came the cake, and then the wedding cake. Only the other day we saw a watermelon laid at the feet of a bride, and a suit of clothes or a dozen shirts or something of that sort in a suit box triumphantly placed before another one. It has now become impossible to distinguish between a commencement and a Christmas tree, but for the third year, with a few vegetables added, the scene would look like an Episcopalian church at "harvest festival time," or like a country fair. By the way, why not enlarge the field of commencement so as to include pigs, cows, a horse and buggy, combined reaper and mower, a threshing machine and even a house and lot or a farm? An elegant line of poultry, dogs and fishing tackle would not be amiss. What would look better on the rostrum before a large class of graduates than an electric street car, or a beautiful steam launch or a pleasure launch?

**The Indorsement of R. N. J. & B. Bonds Held Valid.**  
CINCINNATI, O., June 22.—In the United States Court of Appeals today a decision was handed down, holding that the Monon railroad's indorsement of the Richmond, Nicholasville & Irvine railroad bonds, to the amount of \$650,000, is valid.

**These bonds were issued for the construction of the road from Richmond to Kentucky. When the Southern passed under the control of the Monon, the L. N. & C. indorsed the bonds to the amount of \$650,000. Of this sum only \$650,000 are outstanding, and these, with the unpaid coupons, represent about \$1,000,000.**

**There were four different suits brought to test the validity of these bonds, by the Louisville Trust Company, represented by St. John Boyle, the Kentucky National Bank, by Humphrey & Davis, Billingham and others, by Noble and Sherry. The contention of the bondholders was sustained by the court in these three cases.**

**There is some speculation as to the result of the decision upon the future of the Monon.**

**The decision calls for \$1,000,000. The Monon has not the money, and it is not easy to get in times like these. Either it will have to raise the amount or effect a compromise.**

**"The Comforter."**  
After a long absence, Rev. George O. Barnes, the celebrated evangelist, returned to Louisville last night to conduct one of his evangelistic meetings. He is accompanied by his daughter, Miss Marie, and "Little Organ," No. 4. He opened his campaign in the gymnasium of Hampton College before a small but interested audience.

**Mr. Barnes' last visit of note was in 1870 and 1880, when he conducted a celebrated meeting here. About five years ago he delivered a single sermon at Music Hall. Mr. Barnes said last night he was very glad to get back to Louisville, having many friends here.**

**"I am here for a regular evangelistic meeting," said Mr. Barnes. "How long I shall stay will be governed by the interest manifested. If it increases I shall probably make a long stay, but otherwise the meeting will be short. I chose this place because we are entirely dependent on our friends. I am barred, as you know, from most of the churches. However, I have not so much opposition as formerly. People seem to be reaching the conclusion that I am not such a bad man, after all. Yes, we still have the little organ. We have worn out three, the present one having been given us recently by our friends in Lancaster."**

**Mr. Barnes has changed much since he first held services in Louisville. He has lost much of his first fervor, but is still a powerful speaker. His daughter is not the little girlish Marie of twenty years ago. She is a well developed woman now, but her voice is still sweet.**

**Promptly at 8 o'clock the services were opened by Mr. Barnes and his daughter, by the singing of the hymn, "The Lord is My Rock," accompanied by the "Little Organ." None of the audience joined. Mr. Barnes then offered prayer, after which Miss Marie sang as solo, "Only a Little Sparrow." Mr. Barnes then read passages from the sixteenth chapter of John. Mr. Barnes took as his text the passage in 1 John, 2:1: "If any man say we have a comforter with the Father."**

**No Principal Elected.**  
The Board of Education has not selected a principal for Caldwell High school. Prof. Clark declined to accept the \$1,200 offer. A strong resistance is being made upon the Board in behalf of Prof. J. B. Harris, who has had twenty-seven consecutive years of experience, several of which were as principal of the school in question. He is a fine disciplinarian, is up on all the modern phases of teaching and a successful teacher.

**Stupid Figs.**  
Gladness Comes  
With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a complicated condition of the system, which the pleasant laxative, Syrup of Figs, promptly removes. It is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who stand high and low in the social scale, which it is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

**In the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. Afflicted with any actual disease, one may be commended to the most skillful physicians. In the event of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.**

**almost any other form of exercise, and produces an intellectual as well as physical exhilaration which results from no other exercises. It may be added that the stooping position, while giving greater muscular force, is positively detrimental to health. Women and sensible men wisely choose the more hygienic and graceful nearly upright position, while only the slightest forward position, and it is to be hoped that they will continue to do so. The bicycle is no mere fad. It is rather a machine marvelous in its capacity for meeting the wants of humanity to-day, in supplying the maximum of recreation in the minimum of time, and at the least cost of serious strain. It is unique; it affords exercises which nothing else does, and in doing so becomes a benefaction to the human race. The injunction to "let your moderation be known of all men," applies to the bicycle, though they were no high grade bicycles in St. Paul's day. The possibilities of the wheel are yet in the future. It is an instrument not to be abused, and not to be discarded because some make it the means for dissipation and give it the preference on Sunday to the house of God. Rightly used, and in moderation, it is a health-giver, a health-keeper, and will prove of incalculable benefit in giving vigor and nature's opportunity for recreation, and thus promote the maintenance of a healthy mind in a sound body.**

Any one can get this insurance for 25 cents, that being the price of a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. **Good Health.**  
And a good appetite go hand in hand. With the loss of appetite, the system cannot long sustain itself. Thus irritations of good health are broken down and the system is liable to attacks of disease. It is in such cases that the medicinal powers of Hood's Sarsaparilla are clearly shown. Thousands who have taken Hood's Sarsaparilla testify to its great merits as a purifier of the blood, its powers to restore and sharpen the appetite and promote a healthy action of the digestive organs. Thus it is not what we say but what Hood's Sarsaparilla does that tells the story and constitutes the strongest recommendation that can be urged for any medicine. Why not take Hood's Sarsaparilla now?

**THE NEW HOOK SPOON FREE TO ALL.**  
I read in the Christian Standard that Miss A. M. Fritz, Station A, St. Louis, Mo., would give an elegant plated hook spoon to any one sending her 2-cent stamps. I sent for one and found it so useful that I showed it to my friends, and made it in two hours, taking orders for the spoon. The hook spoon is a household necessity. It cannot slip into the dish or cooking vessel, being held in the place by a hook on the back. The spoon is something housekeepers have needed ever since spoon was first invented. Any one can get a sample spoon by sending ten 2-cent stamps to Miss Fritz. This is a splendid way to make money around home. Very truly, JESSE S.

I have an ice cream freezer that will freeze cream perfectly in one minute; as it is such a wonder a crowd will always be around, so anyone can make from five to six dollars a day selling cream, as people will always have an article when it is demonstrated that they can make money by so doing. The cream is frozen instantly and is smooth and free from lumps. I have done so well myself and have friends succeeding so well that I felt it my duty to let others know of the opportunity, as I feel confident that every person in any locality can make money, as any person can sell cream and the freezer sells itself.
